## Further informations

Onboard, every toy is carefully selected to offer an unforgettable experience to its guests.

As soon as the anchor is lifted, the adventure begins with the 5.4-meter tender powered by a 100-horsepower engine, ready to glide across the waves and ferry explorers to hidden coves and secluded beaches.

But the ARAOK 2 doesn't stop there. It also unveils its impressive range of water toys. The Seabob, like a mechanical dolphin, allows the daring to navigate underwater with ease, while the jet ski delivers thrilling high-speed excitement on the sparkling ocean surface.

For those who prefer gentler activities, two paddleboards offer a peaceful way to explore the surroundings, while the wingfoils provide a graceful ride above the waves.

The Tiwal, a futuristic inflatable dinghy, offers a unique sailing experience, enabling budding sailors to venture out safely. And for a more intimate coastal exploration, the kayak offers a different perspective, allowing access to coves unreachable by larger vessels.

The underwater world holds no secrets for ARAOK 2, which provides high-quality snorkeling gear, inviting guests to discover the abundant marine life beneath the surface. For thrill-seekers, water skis and a wakeboard offer exciting challenges, while the towable tube guarantees laughter-filled moments of pure adrenaline.

And when the yacht drops anchor for a shore excursion, the adventure continues with two electric bikes and two scooters, allowing effortless and free exploration of onshore destinations.
